

Module 1: Work Order Management - Complete Specification

Tab 1: Work Order Information

Version: 2.0

Date: November 26, 2025

1. Purpose

This is the primary and default tab displayed when a Work Order is opened. It serves as the single point of entry for all initial information received from the Saudi Electricity Company (SEC), including the core Work Order data from the Unified Design System (UDS) and the essential official planning documents. All information entered here is read-only after initial creation and serves as the master data for all subsequent tabs.

2. Section 1: UDS & Official Documents

At the top of the tab, there will be a dedicated area for uploading and viewing the source UDS screenshots, Kroki and Building Permit files. An Upload UDS button, Upload Kroki button and Upload Building Permit button will allow users to upload multiple image files (JPG, PNG) and PDF documents. A gallery view will display thumbnails of all uploaded screenshots. Clicking a thumbnail opens the image in a full-screen modal viewer.

3. Section 2: General Information

This section contains the main details identifying the Work Order. The fields should be extracted from the images and organized logically in a form layout.

Field No.	Field Name (English)	Data Type	Field Name (Arabic)
01	Request Number	Text	رقم الطلب
02	Work Type	Text	نوع العمل
03	Request Type	Text	نوع الطلب
04	Request Date	Date	تاريخ الطلب
05	Executing Party	Text	الجهة المنفذة
06	Issuing Party	Text	جهة الإصدار
07	Approval Date	Date	تاريخ الاعتماد
08	Subscriber Type	Text	نوع المشترك
09	Subscriber Number	Text	رقم المشترك

Field No.	Field Name (English)	Data Type	Field Name (Arabic)
10	City	Text	المدينة
11	District	Text	الحي
12	Site Number	Text	رقم الموقع
13	Address	Text	عنوانه
14	Plan Number	Text	رقم المخطط
15	Block Number	Text	رقم البلك
16	Estimation Approval Date	Date	ت اعتماد المقايسة
17	Number of Meters	Number	عدد العدادات
18	Required Voltage	Text	الجهد المطلوب
19	Plot Number	Text	رقم القطعة
20	Number of Spans/Lengths	Number	عدد الأطوال
21	Required Load (kVA)	Number	حمل مطلوب (ك.ف.أ)
22	Station Number	Text	رقم المحطة
23	Execution Period	Text	مدة التنفيذ
24	Contractor Number	Text	رقم مقاول
25	Voltage Type	Text	نوع الجهد
26	Consultant	Text	استشارى
27	Consultant Type	Text	نوع استشارى

4. Section 3: Work Breakdown Structure (WBS)

This section details the specific tasks or items of work to be performed. It should display the following header information above the table: Cost Bearer (متحمل التكلفة), Party (الجهة), Subscriber Name (اسم المشترك), Approval Date (ت اعتماد), and Contract Year (سنة العقد).

The WBS items are extracted from the images and displayed in a table where each row represents a single WBS item.

Field No.	Column Name (English)	Data Type	Field Name (Arabic)
35	Item Code	Text	رمز البند
36	Item Description	Text	وصف البند
37	Material Status	Text	حالة المادة
38	Type	Text	نوع
39	SEQ	Number	تسلسل
40	Warehouse Number	Text	رقم المستودع
41	UOM	Text	الوحدة
42	Estimated Quantity	Number	كمية تقديرية

5. Section 4: Materials

This section details the materials required for the Work Order, as specified in the material disbursement requests from UDS. It should display the following header information above the table: Work Order Number (رقم امر العمل), SAP Reservation No. (رقم حجز الساب), Disbursement Request Date (تاريخ طلب الصرف) and Page Number (رقم الصفحة).

The materials are extracted from the images and displayed in a table where each row represents a single material item.

Field No.	Column Name (English)	Data Type	Field Name (Arabic)
49	Item Code	Text	رقم الصنف
50	H M	Text	ح م
51	F I	Text	ف ي
52	LOC	Text	موقع
53	Requirement Date	Date	تاريخ الاحتياج
54	Requested Quantity	Number	كمية مطلوبة
55	Reserved Quantity	Number	كمية محجوزة
56	Reservation Status	Text	حالة الحجز
57	G M	Text	ج م
58	Disbursed Quantity	Number	كمية منصرفة
59	Actual Quantity	Number	كمية فعلية
60	Estimated Quantity	Number	كمية تقديرية
61	LINE	Number	سطر
